Public consultation on the draft "RSPG Opinion on ITU-R World Radiocommunication Conference 2023"

Dear Ladies and Gentlemen

Thank you for the opportunity to comment on the draft mentioned above. After consultation with the Federal Office of Communications (OFCOM), which is responsible for the allocation of frequency spectrum in Switzerland, we report to you as follows: OFCOM is not represented in the RSPG and is not involved in the "RSPG Opinion". Thus, the Federal Office for Civil Protection (FOCP) and the Police Technology and Information Technology (PTI-Switzerland) take a direct position within the framework of their membership in the TCCA. Both organizations support the final draft "RSPG Opinion on ITU-R World Radiocommunication Conference 2023, June 2022" as well as the "TCCA Spectrum Position on World Radio Conference 2023 Agenda Item 1.5, July 2022". In connection with the Mobile Security Communications (MSK) project, the Swiss Rescue and Security Authorities and Organisations (BORS) as well as the Civil Defence and the Border Guard are in urgent need of additional PPDR frequency spectrum of 2 x 10 MHz in a band specified by 3GPP. We thank you for your support and look forward to further good cooperation.

If you have any questions, please do not hesitate to contact us.

Kind regards

Beeler Andreas HAFUHR
